John Hensley Palmer, esq. Deputy-Chairman.

A New Scale of Premiums on Insurances for the whole term of life has recently been adopted, by which a material reduction has been made at all ages below 70 years.

Four-fifths, or 80 per cent. of the Profits, are assigned to Policies every fifth year, and may be applied to increase the sum insured, to an immediate payment in Cash, or to the reduction and ultimate extinction of future premiums.

One-third of the Premium on Insurances of 200l. and upwards, for the whole term of life, may remain as a debt upon the policy, to be paid off at convenience, by which means 1,500l. may be insured for the present outlay otherwise required for 1,000l.

Loans.—The Directors will lend sums of 50l. and upwards on the security of Policies effected with this Company for the whole term of life, when they have acquired an adequate value.

Security.—Those who effect Insurances with this Company are protected by its large Subscribed Capital from the risk incurred by Members of Mutual Societies.

Insurances without participation in Profits may be effected at reduced rates.

The rates of premium for assurances, either participating or not participating in the profits of the Association, are as low as is consistent with security.

The additions made to the sums assured by policies which have participated in the three divisions of profit declared in 1843, 1847, and 1852, have averaged one-half the premiums paid on them.

Every restrictive condition of assurance, not absolutely necessary for the security of the office, has been withdrawn from the policies.

Every facility offered to persons about to effect assurances on lives, and any information that may be required on the subject of life assurance can be obtained on application at the office.

The directors, whilst calling the attention of the public in general to the advantages offered by this long established association, are desirous to improve upon the minds of all clerks who are not members, the importance of joining without delay, in order to secure advantages which no other office in the kingdom can present, viz:—

2. Division of profits every five years, on policies of three years' standing, nine-tenths of which are given to the assured, and the remaining one-tenth is appropriated to the Benevolent Fund.

3. Loans are granted to all assurers on the security of their policies, and members who are clerks, and about to emigrate, may obtain loans on personal security.

Clerks becoming members by an assurance of 100l. or upwards, and subscribing 5s. annually, or by the annual subscription of 1l. 1s. without assurance, are eligible for all the important advantages of the Benevolent Fund, viz.:—

An annuity to Clerks of 52l. each.
An addition to Widows of Clerks of 12l. each.
Annuities—loans for two years—medical advice.

Clerks who have paid five annual premiums, and who are from misfortune unable to keep up their payments, may have their premiums paid from the Benevolent Fund.

The Association at the present time has on its funds five aged clerks with pensions of 52l. per annum each; twenty-three widows of clerks, with pensions of 12l. per annum each.
